NEW YORK, NEW YORK 10280 | (347) 538-4145 | JDiperi88@gmail.com | Portfolio: Jdiperi.com

SUMMARY

Full Stack web developer seeking opportunity to leverage my knowledge of programming, design, economics and business.

EXPERIENCE

GENERAL ASSEMBLY: WEB DEVELOPMENT IMMERSIVE

New York, NY

Web Developer

05/ 2017 - Present

- Achieved 650 hours of full stack application development.
- Created three main projects utilizing a variety of languages/technologies that are listed in the projects section.

Projects

My Agenda

- Built using rails in the backend and the ERB template engine to render the frontend, My Agenda is an application giving users the ability to create tasks to manage their time more efficiently.
- Users are able to sign up and save their tasks to their profile, and utilize full CRUD functionality to modify those tasks
- Technologies used: Rails, Heroku, Active Record, PSQL, Bcrypt, Ruby, Bootstrap, CSS, HTML.

News Press

- Built using express in the backend and react in the frontend, News Press is an application giving users the ability to centralize their favorite news. Users are able to sign up and save their favorite news sources in a PSQL database.
- Peer programmed with three other members using one git repository to collaboratively develop/deploy this web application.
- Technologies used: React, Node.js Express, Heroku, Axios, PSQL, Passport, Bcrypt, Javascript, CSS, HTML.

Top Fact

- Built using express in the backend and EJS for server side rendering, Top Fact is an application that connects to the open trivia API. It allows users to register and create their own customized trivia game. Their game is saved in five PSQL tables where they can re-render it at anytime.
- Technologies used: Express, Node.js, Fetch, PSQL, EJS, Passport, Bcrypt, Javascript, CSS, HTML.

US RILIN CORPORATION

New York, NY

Assistant Project Manager

08/2014 - 02/2017

- Managed development of contemporary multimillion dollar mixed-use building on 5th avenue in midtown Manhattan
- Led and translated for twelve Chinese laborers while communicating effectively with the construction management team.
- Prepared monthly projections/accurate assessments for labor and material costs.
- Oversaw the Submittal, RFI and Change Order Logs.

NINGBO BINHAI INTERNATIONAL SCHOOL

Ningbo, China

Education Coordinator

08/2013 - 06/2014

- Integrated immersion learning style to enable young students to gain a natural understanding of the English language through visual images and hands-on activities.
- Translated various Chinese signs and forms into English to create an international classroom/school environment.
